## ABOUT

Kitchens have always played an important role and as our day to day lives get busier, they become more essential than ever in the modern home. The kitchen is central to a whole variety of day to day activities. Here at First Impressions, we are passionate about high quality, affordable kitchens that are designed around you to reflect your personality and lifestyle. This brochure contains a collection of designs and ideas to inspire and appeal to the creative genius inside of you.

## GRAPHITE + BRASS

A composition of Oak, Graphite and Foundry Tarnished Brass resulted in this striking combination of materials.

Attracting and drawing the eye through the kitchen, new zones have been marked with distinctly different textures.

Demonstrating the subtle creative elements in this design, brass Edge handles have been used in conjunction with a Black matt handle-less system.

## LAVA + BRASS

An interesting juxtaposition of Industrial Laminate Lava and Foundry Tarnished Brass forms an understated yet refined space.

A top-down view of a wooden table with several material samples. On the left is a black rectangular panel. In the center is a square grey sample. To the right are several fabric and metal samples: a patterned fabric, a dark blue textured fabric, a silver metallic finish, a dark grey textured fabric, and a gold metallic finish. The wood grain of the table is clearly visible.

## DESIGN

We believe that the design experience is as important as the final product and therefore should be just as enjoyable. Our vast but carefully chosen collection of textures, colours and finishing touches will ensure that the journey to your perfect kitchen is a memorable and unique experience.

## SAVANNA + CHARCOAL

Pictured here in gloss Savanna and Foundry Charcoal, is a warm and practical family kitchen.

With its intriguing texture and distinctive looks, this feature larder/oven housing unit in Foundry Charcoal proudly commands its place as the centre of attention.

Smooth painted gloss Savanna units combine with handle-less profiles to create an efficient working space between the single galley run and island.

## PORCELAIN + OAK

Create a serene and relaxed kitchen through the use of calming tones of the Porcelain gloss and the Industrial Laminate Oak shelving.

## CRAFTSMANSHIP

Crafted in Italy by Europe's leading manufacturers, Cosdon benefits from modern techniques combined with generations of expertise. Superior paint finishes and durable, long-lasting materials mean your kitchen will look stunning for years to come.

## LIGHT GREY + BLACK STEEL

Throughout this kitchen a cool monochrome colour scheme has been used. The kitchen floor, Ecoro Oak Tennyson, provides a warm undertone, while the units are a mix of matt Light Grey and Foundry Black Steel, topped with Silestone Snowy Ibiza.

Neatly positioned, the alluring painted texture of Foundry Black Steel adds much interest to the design.

Brushed Anthracite Edge handles were the natural choice for this kitchen. Simple in design and perfectly formed, they add further interest to this contemporary space.

## WHITE + CONCRETE

Exhibit creative flair through the use of unusual combinations, such as this blend of gloss White and Industrial Laminate Concrete, which adds a warmth and character to the room.

# LIFESTYLE

Your home is a brilliant collection of designs, decor and furnishings that reflect your lifestyle and personality. Your modern kitchen should be no different. Our cutting edge designs can be seamlessly mixed and personalised to create a kitchen that integrates beautifully with your home.

## MID GREY, RUST + COPPER

Contrasting tones, such as the gloss Mid Grey and the Industrial Laminate Rust, team together to create a stunning, modern kitchen.

Finishing touches such as the bridge handles in Black matt, helps add distinction and style to this kitchen.

Add warmth and character to the kitchen by using eye-catching details such as Copper glazed frames.

## COPPER + GRAPHITE

Emphasise the exquisite detail of the Foundry Tarnished Copper with the creative use of bespoke Graphite framing.

# HEART OF THE HOME

Cooking with the family. Enjoying a glass of wine in the evening. Entertaining friends. The modern kitchen is a multi-functional space which plays a pivotal role at the heart of your home.

## WHITE + WINTER TEAL

Reflecting Scandinavian influences, the kitchen cabinetry is clean lined and minimal - White painted matt doors amplify the feeling of light and space, while the island in Winter Teal adds a modest pop of colour.

Nestled within the White cabinets, the painted handle-less rail profiles in Winter Teal contrast with the White, echoing the colour used on the island.

Decorative and practical, the oak shelving adds a visual interest whilst keeping convenient items within reach.

## QUALITY

Good design needs to be many things. As well as being beautiful and functional, your new kitchen should be highly durable; designed to withstand the stresses of everyday life for many years to come.

By incorporating materials that are resistant to scratching and moisture ingress, every First Impressions kitchen is built to last.

# BESPOKE COLOURS

In addition to a range of stock colour finishes, many of our fabulous designs are available in a choice of bespoke colours to bring a more personalised feel to your new kitchen and better reflect your particular tastes.

## CREATING A UNIQUE SCHEME

### Layout and lighting

The size of your room and the lighting available will dictate which colours will work best within it. For example, using dark shades in a small room that only has limited lighting, (particularly from natural sources), will give a gloomy impression overall.

Using lighter tones in areas where there are wall cabinets will add a sense of contrast while helping to give the room a brighter feeling. In general, larger, well-lit rooms give the greatest scope when it comes to experimenting with colour.

### Neutral colours

Neutrals are an excellent choice where space is at a premium as they can make a room seem lighter and larger. Using a single shade throughout or mixing similar tones together can create a clean and classic look.

### Contrasting colours

Neutral shades can also be used to offset contrasting shades, and using hues that are opposite in colour or tone can help divide a space into different areas or to create an interesting focal point.

### Bold colours

Bringing bold colours into a room can help add impact and energy. Strong tones are a good way to highlight features such as shelving, islands and freestanding units. However, care is needed to ensure the bold shades used add punch to the overall scheme, rather than dominate it.

### Try a sample

As colours can look different depending on lighting conditions, we highly recommend you request a sample door before finalising your choice and ordering your kitchen.

Choosing the right colour is all down to your personal taste, and selecting a shade from our bespoke range will help you create an altogether more unique and individual space.
